Education

Vellore Institute of Technology   **September 2020 - July 2024**
Bachelor of Technology in Computer Science Engineering   *Bhopal, India*

Mary Gardiner's Convent School   **April 2018 - May 2019**
Class XII   *Lucknow, India*

St Mary's Convent Inter College   **April 2016 - May 2017**
Class X   *Lucknow, India*

Experience

Bharat   **January 2024 – February 2024**
Web Development Intern   *Bhopal, India*

- As an intern, I am developing my abilities in **HTML, CSS, ReactJs, and JavaScript** while working on a variety of projects and earning useful experience.
- Acquiring the knowledge of using external APIs to optimize data synchronization and augment website features. Developing and maintaining interactive and visually appealing user interfaces for the project.

Projects

Code-Sync | *ReactJs, SocketIo, CodeMirror, ExpressJs* | Link   4
- Developed a multi-language Web-based compiler, facilitating good coding practices and supporting **4 distinct languages**, successfully accommodating up to **10 concurrent users**, fostering collaborative learning and growth.

LugaNodes | *ReactJs, Material UI, ChartJs, Firebase* | Link   4
- Engineered a fully responsive front-end website, Luganodes tracker, empowering users to seamlessly monitor and **track over 100 cryptocurrencies** and offer search options.

PixAi | *HTML, CSS, ReactJs, Javascript, NodeJs, MongoDb* | Link   4
- Developed and implemented an advanced AI-powered picture generator, achieving an impressive **97% accuracy rate**, revolutionizing creativity by transforming text descriptions into captivating images.

Achievements

- Highest rating of **972** at Codeforces, which is the top site in terms of participation of programmers across globe.
- One of the best websites for programmers GeeksForGeeks. In my university, I am ranked **140th** out of 2400 students.
- On the subject of **Malware Detection Using Machine Learning,** I prepared a research paper.
- In May 2023, I achieved the **1st** spot in my college on Coding Ninjas.
- In the coding competition held by my university, I ranked **5th** out of 125 students.
- I participated in HackOn with Amazon competition.
- Solved more than **1500+** problems across platforms.
- My Global rank on the Leetcode platform is **78,073**
